Availability: **Immediate** | On-site / Hybrid / Remote.

Driving licence | Own vehicle.

PROFESSIONAL PROFILE:

Graduate in Networked Computer Systems Administration with internship experience in cloud infrastructure, IT support and cybersecurity. Contributed to the administration of corporate Microsoft Azure environments at Capgemini, including cloud resources, virtual networks, identities, monitoring and incident resolution. Knowledge of Terraform and experience in DevSecOps and CI/CD. Currently studying Business and Technology at UDIMA. Focused on systems, automation and IT security.

TECHNICAL SKILLS:

- **Cloud and infrastructure as code:** Microsoft Azure, virtual machines, Resource Groups, Storage Accounts, Azure Monitor and Terraform. AWS fundamentals.
- **Systems and networking:** Windows Server, Windows, Linux, macOS, Active Directory, VMware, Hyper-V, TCP/IP, DNS, DHCP, VLANs, VPNs, VNets, subnets and NSGs.
- **Cybersecurity and DevSecOps:** Azure AD / Entra ID, RBAC, access control, SAST, DAST, dependency scanning, CI/CD, backups and recovery policies.
- **Development and IT support:** Python, JavaScript, PHP, PL/SQL, HTML/CSS, AI-assisted development, ITSM, ServiceCentral, SLAs and ITIL. Introductory SAP.

PROFESSIONAL EXPERIENCE:

CAPGEMINI

Hybrid | Madrid, Spain | Mar. 2026 - Jun. 2026.

Cloud Infrastructure Intern

- Administered Azure resources, including virtual machines, resource groups, storage accounts and virtual networks.
- Configured and maintained VNets, subnets, NSGs and access rules; managed identities and permissions using Azure AD and RBAC.
- Monitored resources with Azure Monitor and reviewed logs; supported Windows/Linux deployments, backups and recovery policies.
- Resolved cloud incidents, provided first- and second-level support, and documented changes and operational procedures.

ATALANTA

Remote | Madrid, Spain | May 2025.

Cybersecurity Analyst - DevSecOps Intern

- Contributed to integrating security into the software development lifecycle using DevSecOps principles.
- Implemented automated security testing, including SAST, DAST and dependency scanning.
- Used DevOps tools to improve visibility across pipelines and cloud environments, identify risks early and automate repetitive tasks.

LEROY MERLIN

On-site | Madrid, Spain | Mar. 2025 - Jun. 2025.

Sales Associate - Lighting and Ventilation

- Provided personalised customer advice and recommended lighting and ventilation solutions based on customer needs.
- Managed products, organised the sales area and followed up on orders in collaboration with the sales team.

CAPGEMINI

On-site | Madrid, Spain | Mar. 2024 - Jun. 2024.

IT Helpdesk Support Intern

- Managed tickets in ServiceCentral, tracked SLAs and escalated incidents to second- and third-level support teams.
- Provided on-site, telephone and remote support for Windows, macOS, Linux and virtualised environments; installed hardware and corporate software.
- Diagnosed connectivity issues, managed credentials and access in Active Directory, and applied updates and security patches.
- Created user guides, knowledge base articles and reports; contributed to process improvements following ITIL practices.

EDUCATION:

- **Degree in Business and Technology** | Universidad UDIMA | Sep. 2026 - Present. In progress.
- **Higher Vocational Diploma in Networked Computer Systems Administration (ASIR), Cybersecurity pathway** | iFP, Grupo Planeta | Sep. 2024 - May 2026. Completed. **Final project grade: 10/10.**
- **Intermediate Vocational Diploma in Microcomputer Systems and Networks (SMR)** | iFP, Grupo Planeta | Sep. 2022 - Jun. 2024. Completed.

CERTIFICATIONS AND ADDITIONAL TRAINING:

- **Pluralsight - Microsoft Azure Fundamentals (AZ-900):** Foundational Cloud Concepts (5 Mar. 2026) | Azure Architecture and Services (23 Apr. 2026) | Azure Security, Management and Governance (23 Apr. 2026).
- **Pluralsight:** Terraform Deep Dive | 21 May 2026.
- **Udemy:** AWS Certified Cloud Practitioner (CLF-C02) - preparation course completed in Jun. 2026.
- **Networking:** Cisco CCNA 200-301 v1.1: Full Course for Networking Basics - course completed in May 2026.
- **Additional training:** Introductory SAP course | AI applied to software development.
